Project Details

(Preliminary) Project Title:

Briefly describe your change project (max. 700 characters). In doing so, explain which challenge in the area of digitalization in higher education will be addressed in your project:

Roadmap: What is planned in detail? What does your timeline look like?

Impact

- **Connection to the university:** How do you ensure to have an impact on the university? Which connections to relevant stakeholders already exist or could be established with our support (e.g. to a specific institute, department, or other institutional level)?

- **Added value and multiplication:** What impact should the project have? How will students and other status groups be reached with your measures and work results (e.g. publications/videos/online events/workshops)?

Co-Design of the Accelerator

- **Your strengths:** What expertise and skills do you bring to the table as a team or as individuals that you can use to support other fellows in a peer-exchange manner? (This could be, for example, experience with event planning, programming skills, PR etc.).

- **Your needs:** What would you like to learn during the program? Which kind of impulses or support offers (content-related or methodological) would help your project move forward?

Your motivation: Why do you want to become DigitalChangeMaker fellows? How do you want your project to benefit from being accepted into the Accelerator?

Query for the kick-off event on August 14 (10 am - 4 pm) in Berlin:

name 1

name 2

name 3

I could attend
the kick-off and
would need
accommodation.

I could attend
the kick-off, but
I don't need
accommodation.

I can't attend
the kick-off.

Please list any special requirements for participation in the kick-off
event and food intolerances/restrictions here:
